ATASCADERO – On Wednesday, September 2, 2009, Congressman McCarthy will hold a Health Care Town Hall Meeting to listen to local residents concerns and answer questions regarding the current health care debate in Congress. Congressman McCarthy issued the following statement:

“As Congress deliberates the future of America’s health care, I want to listen to our local residents concerns and answer their questions. I am fighting to keep families in control of decisions, not bureaucrats. That is why I support fiscally responsible health care solutions that focus on increasing affordability, accessibility, and jobs, and also protecting individuals, small businesses, and families.”
